The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 09/474,576	Applicant(s) MOLLETT ET AL.	
	Examiner Andrew Joseph Rudy	Art Unit 3687	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 9-16 are pending. Applicant cancelled claims 1-8.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 9-13 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are not tied to a statutory class and do not transform the underlying subject matter to a different state or thing. Further, the claims may be carried out by hand.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 9-13 are also rejected under 35 U.S.C. 112, first paragraph. Specifically, since the claimed invention is not supported by either a clearly asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3687

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 9-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims, as understood, are not statutory pursuant to the 35 USC 101 rejection noted above.

Thus, the meets and bounds of the claims may not be ascertained.

Claim Rejections - 35 USC § 103

8. Claims 9-16, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Templeton, US 5,679,940 in view of Norton, US 6,243,689.

Templeton discloses, e.g. Fig. 1, a method of using a computer, e.g. 35, for determining whether to collect from check writers using data comprising a negative file 85, a positive file 87, a modeling system, e.g. 90, a merchant file 100, and a credit risk scoring algorithm, e.g. cols. 12-14. Templeton does not show a database using categories to remove negative information from the negative file or to remove the negative information.

Norton discloses, e.g. Figs. 1-7 and related text, a check verification system/method where a modified negative file, e.g. 84, is sent to a merchant location for check verification.

Applicant's January 7, 2009 Amendment and REMARKS have been reviewed, but are not convincing. It is noted the wherein clause added to claim 9 is intended use

Art Unit: 3687

claim language that need not happen. Further, the negative database of Templeton may be accessed.

To have provided a modified negative file sent to a merchant location for check verification for Templeton, would have been obvious to one of ordinary skill in the art in view of Norton. The motivation for such would have been to have provided a more secure payment processing system/method for Templeton.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
